A NEW COURT-HOUSE

LIKELY THAT HENRICO SUPERVI-SORS WILL DECIDE TO BUILD.

said That the Objecting Property Owners May Not Renew the Fight-Judge Wellford Decides Against Banover in the Road Matter.

The purpose of the Henrico Board of upervisors to reopen the question of ilding a new court-house at their meeting next Monday has caused considerable comment among the tax-payers of the ounty, who had thought the matter had

been finally disposed of. At the January meeting of the board the proposition to build a new courtwas brought up for the fourth time by Chairman Hechler, and a large gathering of county property weners, who had previously protested at they considered the useless expenditure of money for a building which was not assembled and vehemently re-

newed their protests. As a result, the board decided by a vote of 3 to 1 not to build a court-house, Mr. Hechler casting the affirmative vote. Dr. R. A. Patterson and Mr. R. B. Chafwere outspoken in their opposition to the rebuilding plan, insisted that

sition to the rebuilding plan, insisted that the disposition of the matter be final at least for two years, and they understood that such would be the case.

It is understood now, however, that two of the other supervisors have come over to Mr. Hechler's way of thinking, and that the vote against rebuilding will be reconsidered. Some of the gentlemen that the vote again, resultance who appeared before the board in January are very indignant over the turn affairs have taken, and now say they will not go before the board again, but will let m do as they please

DECIDES AGAINST THE ROAD. An important contest over a road from Hanover county to Richmond was de-cided yesterday by Judge B. R. Weilford, cided yesterday by Judge B. R. Wellford, Jr., against the Hanover people, and in favor of Henrico. The farmers near Shady Grove church, in Hanover, under the lead of Mr. Ralph Horne and others, tried to force the opening of a public road between the Mechanicsville turnpike and the Chesapeake and Ohio railroad to this city, by means of which they could avoid paying toil. The Henrico Supervisors and others opposed this scheme, because it entailed a heavy expense upon Henrico, without any benefit to its citizens, and in October stopped the progress of the work without any benefit to its citizens, and in October stopped the progress of the work by an injunction, which was awarded by Judge Keith, of the Supreme Court. A large amount of testimony was taken in the case, and, after being fully argued by counsel on both sides, it was yesterday morning decided by Judge Wellford, as stated above. The Hanover people will either take the case to the Supreme Court of Appeals or institute new proceedings to have a right of way condemned. Mr. George T. Haw represented Hanover, and Major A. R. Courtney the Henrico people.

beliding a railroad from Fairmount to this city. They expect to establish a con-nection on Church Hill with one of the two existing street-railway systems. H. A. Montague was before 'Squire Vin-cent yesterday morning at the Henrico County Court on the charge of killing a dag belonging to J. B. Hoard. The Poet 'Squire allowed the alse to be compro-mised, and dismissed it on the payment of costs.

Miss Nimmo had been suf-fering from the effects of a bad cold for some time, but was made much worse by her constant attention to her mother, some time, but was made much worse by her constant attention to her mother, Mrs. M. E. Nimmo, who was buried on Wednesday. Thursday morning she grew rapidly worse, pneumonia having developed. This, with the nervous prostration, caused her death. Miss Nimmo was a faithful and consistent member of Grace Episcopal church. Active and devoted to her church work, ever willing to lend a helping hand in whatever capacity she could be useful, her life has been one of unselfishness, the most of her latter years being given to the attentions to her father, until his death, and then to her mother. Miss Nimmo leaves one sister, Mrs. Julia Mitchell, of Petersburg, and one brother, Mr. Thomas E. Nimmo, of Richmond. She was an aunt of Dr. Virginius Harrison, of this city. The funeral will take place from Grace church this afternoon at 4 o'clock.
Miss Carrie Hankenship, a young, beautiful, and popular lady, died Thursday evening at the residence of her brother-lin-law, Mr. James B. Vaughan, on Nicholson street. She had been a sufferer for months, but bore her affliction with the patience and fortitude of a heroic Christian.

JONES AND THE OVERCOAT. Captain Frayser Says It Was an Optical Illusion.

The most interesting case called in the Police Court yesterday morning was that of John W. Jones, charged with stealing the property of

W. C. Bartiett.

Jones and Bartlett boarded at the same house, and Mrs. Bridget Henderson said when Jones went out of the hallway the coat went also, and when she looked again the coat was hanging on the inside of the fence; then she saw Jones go over the fence, and the coat went also. Policeman McMahon produced a light fall overcoat, which, he said, Bartlett hal overcoat, which, he said, Bartlett hal overcoat, which was supposed to the blue overcoat, which was supposed to they been stolen by Jones, however, so the Justice turned his attention to Bartlett, who was present, being charged with the larceny of \$2 from his employers, Messrs. C. F. Sauer & Son. The overcoat pawned by Bartlett was new and quite handsome.

pawned by Bartlett was new and quite handsome.
Captain Frayser, who was counsel for Jones, addressed the Court briefly: "This reminds me of the far West," said the lawyer, "and also of the great desert with ships in it. In other words, your Honor, this coat theory is an optical illusion, and my client, Mr. Jones, had nothing to do with it." Though Justice Crutchfield falled to see either the ship or the desert, he promptly discharged Jones, and continued the case against Bartlett for stealing the 32, and instructed Policeman McMahon to get some more information with regard to the new coat which he had pawned.
Charles Hope, charged with unlawfully assaulting and striking with some blunt instrument l'obert Welsh, was sent on to the grand ury.
Louis Paul, charged with an attempt of criminal assault on Annie Smith and Julia Clay, appeared before the Justice, but no evidence was produced against him, and both cases were discharged.

Ezcklei from the special sale held by Mr. Ezeklei from the special sale held by Mr. Ezeklei March 4th, 20 per cent. of the receipts to go to the rebuilding fund of Grace-Street Baptist church. The loctor very feelingly alludes to Mr. Ezeklei's offer as one of the first received, and the good effect it had on others. He also very nicely wishes Mr. Ezeklei every auccess in his business enterprise.

To Those of the Gentler Sex, Suffering from Nervous Debility, a Boon Is Offered.

It is no longer either fashionable on

It is no longer either fashionable on the one hand or 2 matter of reproach on the other, to have "nerves" and know it. Women, from their keener, more delicate organization are more subject to nerve troubles—to prostration, exhaustion, sleeplessness, lack of vigor in mind or body, dyspepsia, neuralgia, and all the rest of the kindred evils—than men are. And they suffer more when unstrung. Fortunately they respond more readily than men to a remedy. That a sure specific for nervous troubles is within woman's ready reach is not open to question. Thousands know this to be true. Here are a few expressions from hundreds received within the last two months:

WANTED,

The coal itself lies in a basin, which is almost entirely owned and controlled by the above company. The veln has a slight pitch to the South; is 45 to 48 inches in thickness, and overlaid with a strong stratum of rock, which makes a splendid roof. There is little or no water to contend with, and mining is easy, no blasting being required. Situated as these mines are, only 13' miles from tidewater at Wilmington, N. C., with which point they are connected by two distinct line of railroad, part of one of which is directly controlled in the interest of the mines, they are absolutely out of reach of competing operators, thus insuring the miner steady work, without having to bear the brunt of the ruinous prices which are usually the result of close competition. The price paid for mining is 60 cents per gross ton.

These mines are 300 miles nearer to the tidewater business than Pocahontas. The climate of the country is delightful and perfectly healthy, being entirely free from malaria and kindred diseases.

Cumnock is a thriving little village, admirably located for future growth, and its prospects are bright. The company owning this property are determined to make the enterprise a thorough success.
